

Soman Ahmad

Toronto, Ontario | ahmad@soman.ca | 306-512-2000 | somanahmad.com

Software Developer with a background in full-stack web and mobile application development, systems analysis, and project management. I bring hands-on experience across the entire development lifecycle — from requirements gathering and design to deployment and QA. Complementing my technical background is experience in aviation operations at Air Canada, which has sharpened my approach to precision, accountability, and performance under pressure. I adapt quickly, take ownership of outcomes, and build software I am confident putting my name on.

WORK EXPERIENCE

Operations Control Manager 2025 – Present

Air Canada — Toronto Pearson International Airport

- Overseeing and managing all aspects of airline operations at Toronto Pearson International Airport
- Directing and coordinating cross-functional teams to ensure seamless day-to-day operational performance
- Proactively forecasting and mitigating delays to drive on-time performance
- Upholding the highest standards of safety and standard operating procedures
